Selah Technologies Invited as Guest Speaker at 2008 ISPE Annual Meeting

Selah to present during Nanotechnology session

(Greenville, SC: October 23, 2008) Selah Technologies, an advanced materials manufacturer, announced today that the company has been invited to be a guest speaker at the upcoming 2008 ISPE Annual Meeting. At the ISPE Annual Meeting, pharmaceutical manufacturing industry professionals from around the world will gather to share experiences and gain insights affecting industry change. The upcoming annual meeting will be held from October 26-29, 2008, in Boca Raton, FL.

"Selah is honored to be an invited guest speaker at the upcoming 2008 ISPE Annual Meeting. This presentation will allow Selah to highlight public partnering opportunities available to nanomaterial innovators who understand the need for transparent product stewardship in the pursuit of market opportunities in the healthcare field, especially with respect to the pharmaceutical and biologics industries. Moreover, we will be able to share our story with industry leaders to better position Selah for our upcoming Selah Dots™ product launch," said Michael Bolick, President and CEO for Selah.

Selah Technologies obtained a worldwide exclusive license in 2006 from Clemson University to develop and commercialize two nanotechnologies, branded Selah Dots™ and Selah Tubes™. Selah Dots™ are patent-pending carbon based nanoparticles that can be used for various applications, including life sciences, solar cells and anti-counterfeiting, among others. Selah Tubes™, enriched carbon nanotubes protected under US Patent No. 7,374,685, have a number of applications due to their impressive electrical and thermal conductivity properties.

About the ISPE

ISPE, the International Society for Pharmaceutical Engineering, is the world's largest not-for-profit association dedicated to educating and advancing pharmaceutical manufacturing professionals and their industry. Founded in 1980, today ISPE serves 25,000 members in 90 countries. For more information, visit <http://www.ispe.org/>.

About Selah Technologies

Located near Greenville, SC, Selah Technologies, LLC is a privately held advanced materials innovator and manufacturer founded in 2006. Selah's mission is to consistently deliver high quality nanomaterials and nanotechnology enabled products to the global marketplace. For more information, visit www.selahtechnologies.com.
